CYCLONEBOLT.COM

WHO WE ARE

BUILT FROM ZERO. OWNED OUTRIGHT.

Cyclone Bolt is a precision fastener manufacturer in Houston, Texas — founded in 2016 and grown from a single machine to a full production floor without outside capital. Every stud, nut, and custom part ships from our own facility, under our own quality system.

That independence is the point. We answer to the customer on the phone, not to a distant parent company — which is why "no request is beyond us" has held true for a decade of rush orders, oddball threads, and specs nobody else wanted to quote.

A193 B7 · B7M · B16 · B8/B8M — threaded & coated in-house

CAPABILITIES · MANUFACTURED PRODUCT

STUD BOLTS & NUTS

Threaded to order across the full range of ASTM grades — carbon, alloy, and stainless — with lengths cut, threaded, and coated in-house. Field-standard lengths run long by design for coating and engagement allowance.

STUD & DOUBLE-END STUDS

- A193 B7 · B7M · B16
- A320 L7 · L7M (low-temp)
- A193 B8 / B8M Class 1 & 2
- B8 / B8M 321 · 347 · A286 · Alloy 20
- Fully Threaded, Tap-End & Double-End
- 1/4" Through 4" Diameter

THREADING

- UNC · 8UN Constant Pitch
- Cut & Roll Threading
- Overtapping to Spec
- Class 2A / 2B Fit Standard

NUTS

- A194 2H · 2HM · Grade 7 / 7M
- A194 8 / 8A · 8M / 8MA
- Heavy Hex · Finished Hex · Jam
- Full Range to Match Stud Grades

WASHERS & ACCESSORIES

- F436 Hardened · Structural
- Bevel & Flat Washers
- Matched Fastener Assemblies

CAPABILITIES • SERVICES & FINISHING

BEYOND THE CATALOG

The parts nobody else will quote are the ones we're known for. Custom fabrication, secondary machining, and applied coatings — done in-house so lead time and quality stay under one roof.

CUSTOM FABRICATION

- Made-to-Print Special Fasteners
- Non-Standard Lengths & Diameters
- Bent Bolts, U-Bolts, Eye Bolts
- Reverse-Engineered Legacy Parts
- Small-Batch & Prototype Runs

MACHINE SERVICES

- Overtapping • Roll Threading
- Custom Etching & Engraving
- Cut-to-Length & Chamfer
- Drilling & Slotting

COATINGS & FINISHES

- Hot-Dip & Mechanical Galvanizing
- Zinc & Zinc-Nickel Plating
- PTFE / Fluoropolymer (Xylan-Type)
- Phosphate & Oil
- Modumetal® NanoGalv®
- Cadmium (Spec / A&D Applications)

GASKETS

- Spiral Wound • Ring Joint (RTJ)
- Sheet & Cut Gaskets
- 1/4" Through 72"
- Matched to Flange Class & Service

MARKETS SERVED

WHERE OUR BOLTS GO

ENERGY & PETROCHEMICAL

The core of what we do. Flange bolting, studs, and gaskets for refineries, midstream, chemical plants, and upstream service — API Q1 and API 20E/20F manufactured, built for sour service and high-pressure sealing.
